

Tomorrow, Tuesday, March 29th, between 9 am and 4 pm, we're going to call the officials listed. When public officials refuse to come to the Nehemiah Action and be accountable for solving a serious community problem, we need to let them that it's **unacceptable!**

When you call:

- Say your name and congregation, and what part of the city/county you live in.
- Tell them that solving issues with access to mental health services is important to you.
- "I believe that the issue of mental health services is a critical problem in our community. I was **very disappointed** that you did not find this issue important enough for you to attend the March 28th Nehemiah Action meeting."
- "I support the IMPACT proposals, and I believe you should, too."
